Professional Summary

Motivated B.Tech Computer Science student with hands-on experience building full-stack web applications, AI-powered tools, and Android mobile apps. Demonstrated ability to independently design, develop, and deploy end-to-end projects using TypeScript, React, Node.js, Python, Kotlin, and cloud tools. Strong interest in software engineering, AI-enabled products, and mobile application development, with a focus on clean implementation and practical problem solving.

Education

B.Tech in Computer Science — *2024 – 2028*
Siddhartha Academy of Higher Education, Vijayawada — *CGPA: 8.64*

Intermediate (MPC) — *2022 – 2024*
Krishna Reddy Sri Chaitanya, Vijayawada — *86.8%*

10th Grade – CBSE — *2012 – 2022*
Veeramachaneni Paddayya Siddhartha Public School, Vijayawada — *72.6%*

Technical Skills

Languages	Java, Python, C, Kotlin (Fundamentals), SQL, TypeScript, JavaScript
Frontend	React.js, HTML5, CSS3
Backend	Node.js, REST APIs
Mobile	Android Studio, Kotlin, SQLite
AI / Data	Python data pipelines, Natural Language Interfaces, Cloud-based AI tools
Tools	Git, GitHub, Google Cloud Console, VS Code, Docker, Postman, Figma, Linux
Soft Skills	Teamwork, Problem Solving, Adaptability, Resilience

Projects

EquiAlert – Stock Market Intelligence Platform *GitHub*
Full-stack dark-mode web app for Indian stock markets with real-time stock tracking, market news, watchlist management, and an AI-powered insights chatbot.
Tech: TypeScript, React, Node.js, Python

- Built a polished finance dashboard with market indicators and AI-assisted insights.

Stocks-API – Real-Time Market Data Microservice *GitHub*
FastAPI analytics API with real-time quotes, historical data, and technical indicators (SMA, EMA, RSI, MACD, Bollinger Bands), powered by dual Google Finance & Yahoo Finance sources with automatic fallback.
Tech: Python, FastAPI, SQLite / PostgreSQL

FloatChatSAHE – AI Oceanographic Data Assistant *GitHub*
AI-powered conversational system for querying and visualizing ARGO oceanographic float data via natural language.
Tech: JavaScript, Python, SQL, Google Cloud

- Simplifies access to scientific datasets for researchers and analysts.

FRIDAY – Personal AI Voice Assistant *GitHub*
Windows voice assistant with speech-to-text, text-to-speech, wake-word detection, and pluggable AI providers (Ollama, OpenAI, Gemini, Grok).
Tech: Python, Ollama, Speech APIs

ProjectNOVA – Laptop Optimization Service Website *GitHub*
Premium student-focused service website for laptop optimization and virtualization, with a 3D shader hero, scroll storytelling, and a full service catalog.
Tech: Next.js, TypeScript, Tailwind CSS, Framer Motion, Three.js

WebOS – Retro Browser Operating System *GitHub*
Retro-themed OS running entirely in the browser with BIOS boot sequence, CRT display effects, draggable windows, and multi-desktop support.
Tech: JavaScript, HTML, CSS

Multi-File-Conversion – Universal File Converter *GitHub*

Web application enabling batch file conversion across documents, images, audio, and video formats with smart format suggestions and instant downloads.
Tech: TypeScript, React, Docker, Shell

Event Management Hub – Campus Events App *GitHub*
Android application for managing campus events and coordination workflows, developed for the EPICS program.
Tech: Kotlin, Android

Expense Tracker App – Personal Finance Manager *GitHub*
Fully offline Android app to log income and expenses, categorize transactions, and visualize spending patterns through built-in charts and analytics.
Tech: Kotlin, Android, SQLite

LGC Official Website – IoT Team Portfolio *GitHub*
Responsive portfolio website for LGC (Let's Get Connected) with smooth animations, mobile-first design, dynamic JSON-driven content, and GitHub integration.
Tech: TypeScript, React, Vite, Tailwind CSS, Framer Motion, Express.js

Experience & Leadership

Web Designer *Jun 2026 – Present*
AWS Student Builder Group Siddhartha University *Part-time, On-site*

- Designing and building responsive web experiences for the AWS Student Builder community.
- Collaborating with the team on outreach and cloud-focused content.

Campus Innovator *Jan 2026 – Present*
SPARC Foundation *Remote*

- Leading ideation and execution of student-focused technical initiatives.
- Collaborating across teams to build practical innovation-driven solutions.

Ideate Station Executive *Sep 2025 – Present*
TechnoVate-SAHE *On-campus*

- Screen and refine ideas into actionable proposals through brainstorming sessions.
- Support innovation workflows and student participation in ideation activities.

Certifications & Workshops

- C++ Essentials 1 – Cisco Networking Academy (Mar 2026)
- C++ Essentials 2 – Cisco Networking Academy (Mar 2026)
- JavaScript Essentials 1 – Cisco Networking Academy (Mar 2026)
- CSS Essentials – Cisco Networking Academy (Mar 2026)
- HTML Essentials – Cisco Networking Academy (Mar 2026)
- Programming in Java – NPTEL / IIT Kharagpur, 12-week course, Elite certification, Score: 61% (Oct 2025)
- Python Essentials 1 – Cisco Networking Academy (Oct 2024)
- Python Essentials 2 – Cisco Networking Academy (Nov 2024)
- Digital Awareness – Cisco Networking Academy (Oct 2024)
- Linux Essentials – Cisco Networking Academy (Oct 2025)
- Google Android Developer – EduSkills / AICTE (Jun 2025)
- Android Developer Virtual Internship – AICTE EduSkills (Dec 2025)
- Build with AI: Intro to Gemini 2.0 Flash – L4G Solutions / India Edu Program (Sep 2025)
- Quantum Fundamentals – Amaravati Quantum Valley, Qubitech & WISER, 1 academic credit (Feb 2026)
- Full-Stack Development Workshop – Skilligence Edtech / E-Cell BITS Pilani Hyderabad (Jan 2026)
- Game Development Unlocked for Beginners – Siddhartha Academy / Innovarsity (Jan 2026)
- GDG Solution Challenge Certificate of Participation – Google Developer Groups on Campus / Hack2Skill (Jan 2025)
